

PromeAI Workshop

Participants

- Sustainability Officers.
- IND invited Staff.
- 2 to 3 PG Students (From each department).
- Candice & Director of Product.

Date & Time

25th of April. 10.00 - 17.00

Where

Design Building (Room TBC).

Workshop Topic

Designing Sustainable Spaces and Features for Indoor Farming and Recycling Spaces for the Design School.

Workshop Objectives

With the help of PromeAI software and their staff expertise, our participants are required to *design new sustainable alternatives for future indoor farming to generate our own food production for the design school.*

The participants should seek not only AI-powered images but also devices, structures, lighting and watering systems that can visually demonstrate potential solutions for our resilient context for a circulated economy.

Workshop Schedule

- 10.00. PromeAi Staff Company & Services Introduction
- 10.30. Vinny will introduce the workshop topic and the activity's aims.
- 10.50. Groups set up.
