

THE WEEK OF LIGHT

After the successful collaboration with iGuzzini and IDI, organized last year, a new design event “The Week Of Light” will present three interconnected workshop aiming to investigate and envision the future of Light in 3 different scenarios:

WORKPLACE

3 Workshops

The Future of light in RESIDENTIAL space

The Future of in WORKPLACE space

The Future of light in SOCIAL space

RESIDENTIAL

SOCIAL

SPECULATIVE DESIGN FRAMEWORK

Following a SPECULATIVE DESIGN FRAMEWORK, the participants will be involved in brainstorming sessions and activities where they will be encouraged to share their ideas and insights about the future of lighting design under the supervision of tutors and guests.

IGUZZINI VISIT

The participants will be hosted by iGuzzini Company to visit their branch in Shanghai and be introduced to their brand and visions.

DESIGN VISION AI

During the design vision phase, participants will use generative AI tools to visualize the future of lighting on the three different proposed scenarios.

A Jury panel will provide feedback and select the best proposals that will be exhibited at IDI Shanghai 2024.
